

LIAISON

ANTIPROHIBITIONNISTE

Pour une autre approche des drogues

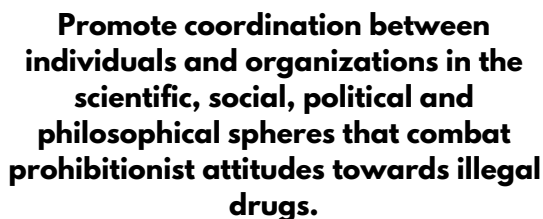

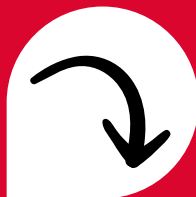

Liaison antiprohibitionniste is an association of people convinced of the ineffectiveness of drug prohibition. Particularly as regards its ability to reduce drug trafficking, crime and the risks associated with drug use. It promotes possible alternatives to the criminal prohibition of drugs by suggesting a critical debate on the issue. Founded in 1989, Liaison Antiprohibitionniste has been at the forefront of the debate in Belgium on the coherent management of drug use.
